Weekly Summary

We wrote some basic idea of how we are going to get a understandable readings(angles from people's back movement) on the ongoing progress document. We somehow got the 'broken' sensor run again while meeting with our technical advisor on Thursday(do not know how and why it is not working previously). We are doing some research on the I2C bus and getting our hands on setting up the second bus.

Pending issues

- Improve the algorithm
- setting up the second bus

Plans to solve issues

Do researches on the datasheet of the sensors
Try to build plot graph from the data we are collecting
